PROJECTS

Personal Website | [GitHub](#) | [Website](#)

HTML | CSS | JavaScript | Git

- Designed and developed a personalized portfolio website showcasing professional projects, skills and achievements using HTML, CSS, and JavaScript, with a focus on responsive design and user experience optimization.
- Implemented interactive features such as animated transitions, dynamic content loading, and smooth scrolling to engage visitors and highlight key information effectively.

To-do List App | [GitHub](#)

React.js | Git

- Developed a dynamic To-Do List application using React and implemented core functionalities such as task creation, updating and deletion.

Temperature Converter | [GitHub](#)

HTML | CSS | JavaScript

- Developed a user-friendly temperature converter website using HTML, CSS, and JavaScript, allowing users to seamlessly convert between Celsius, Fahrenheit, and Kelvin scales with real-time updates.
- Implemented responsive design principles to ensure optimal viewing and functionality across various devices, enabling users to access and utilize the temperature converter website on desktops, tablets, and smartphones effortlessly.

EXPERIENCE

Coca-Cola

Baton Rouge, LA

Incoming Pay-It-Forward Intern

July 2024
